

## [How to] Print Wallpaper - UCJV Series

Mimaki

Printer: UCJV Series / Inkset: LUS200

Media: JET TEX Wall - Dickson Coatings

### 1. Instructions

---

**[1-1.** Create design image using design software Illustrator or Photoshop, save in format .eps (illustrator) or .Tiff (photoshop).

**[1-2.** Open file in Rasterlink and set print environment.

Profile: DicksonCoatings JET TEX v3.5  
Resolution: 600x600

**[1-3.** Load media onto printer utilizing take up. Place printer into Remode mode and click rip & print in Rasterlink.

**[1-4.** Jet Tex with a wall paper glue on back side. Simply spray water on the reverse side and on the wall, and roll the Jet Tex

**(Reference:** Jet Tex Application video attached if we want to show small application to wall).

**Note:** Wallpaper looks best when seams are layed next to one another perfectly with out overlapping

**[1-5.** Interior Decoration for Wall paper, Shop Design, P.O.S, pictures, Art Reproduction
